## Engineering Change Notice

<b>Title</b>	ALG video card modification
<b>ECN Number</b>	ECN-0123
<b>Equipment</b>	All desks
<b>Author</b>	Adam Proffitt
<b>Drawing Number</b>	
<b>Date</b>	19/06/00

<b>Reason for ECN</b>	It was found that interference (eg from a mains cable) could affect unused address lines LA23 – LA17 on the video card.
<b>Special Parts required</b>	None
<b>Special Tools required</b>	None

### Work Required

Pins C2 – C8 should be connected to anode of diode D1 on AP9707 (has ALG2032+ Chipset) circuit board. (The anode is the end nearest to the marking D1 on the board.)  
See photograph.
